

General

Since 2009 we employ shipbuilding professionals and offer their expertise and capabilities to a variety of clients. We supply international project staff and consultancy at BSc/MSc level. OCRE Shipbuilding is part of OCRE Offshore Services B.V., a global supplier of professionals for the offshore and energy industry.

Our mission

Is to help our clients to outperform on projects with the aid of our professionals and /or teams.

Shipbuilding specialists

Modern shipbuilding demands highly qualified and experienced specialists.

OCRE employs and supplies these specialists to the industry. If necessary, we mobilise specialists within four days to major worldwide ports and sites. Teams and individuals. Including fullscope payroll solutions.

High standard

OCRE provides cost-effective high quality solutions in changing markets, changing project configurations and changing planning schedules. We help our clients to achieve highest sustainable standard with respect to quality and safety.
