

## General

OCRE is happy to announce the availability of a large and growing pool of highly skilled versatile offshore painters and blasters. Combined, our current pool members represent a vast number of hours worked in offshore (oil and gas, offshore wind), with reputable clients in the industry.

## Overview

We gained experience in integrity management, asset management, construction management, submarine cables, and offshore wind. We supply our offshore painting & blasting services mainly in North Sea, Mediterranean, Taiwan and UK.

## High standard

OCRE provides cost-effective high quality solutions in changing markets, changing project configurations and changing planning schedules. We help our clients to achieve highest sustainable standard with respect to quality and safety.
